About St. Joseph’s Health

From a 15-bed hospital to a 431-bed hospital health center that encompasses a 16-county service area with many outpatient and inpatient programs, satellites and affiliated organizations, St. Joseph’s has evolved into a system of health care services.

More than a facility for inpatients, St. Joseph’s health care system puts the patient at the center of its activities. Health care services are available wherever patients are on the health continuum. The interconnection among St. Joseph’s many programs and services allows those patients who need one or more services to receive them in a coordinated, continuous way.

Not only does a network of services make it easier and more convenient for patients, but it also allows St. Joseph’s to offer a complete array of high quality services and fulfill the values of our mission: stewardship, compassion, reverence, excellence and integrity.
A Message from KATHRYN H. RUSCITTO
President, St. Joseph’s Hospital Health Center

Welcome to St. Joseph’s. We are pleased to offer you a wide range of health care services, including hospital-based, as well as outpatient services. Our vast system of primary care includes everything from family medicine to dental to behavioral health. In addition, we offer home care, imaging, physical therapy and medical equipment, to name only a few. St. Joseph’s prides itself on being a compassionate healthcare provider, offering the highest level of care to the community. I personally invite you to discover the St. Joseph’s difference.

St. Joseph’s Health Directory of Services

St. Joseph’s Hospital Health Center
742 James St., Syracuse, NY 13203
PH: (315) 458-6111

Behavioral Health Residential Services
The Residential Services Program offers two levels of care which provide structured and supportive environments for patients with psychiatric disabilities, 18 years of age and older. The primary goal of both the supervised community residence program and intensive supportive apartments is to ensure that those in need will receive the support and services necessary to maintain the most appropriate level of independent living possible.

742 James St., Syracuse, NY 13203
PH: (315) 703-2812

Behavioral Health Services
St. Joseph’s has a full range of inpatient and outpatient behavioral health services for area residents of all ages with various needs. Funded and accredited in cooperation with the Onondaga County Department of Mental Health and the New York State Office of Mental Health, it is a state designated Community Health Center.

742 James St., Syracuse, NY 13203
PH: (315) 703-2700

Children & Youth Outpatient Clinic
The Children and Youth Clinic provides behavioral health services to children up to the age of 18 and their families. Children and youth are treated individually, in families, in groups, through collaborative services for parents and significant others. Medication services are also available.

742 James St., Syracuse, NY 13203
PH: (315) 703-2800

See Medical Equipment

Women’s Services
Women and Children’s Services includes labor and delivery, postpartum, intensive care nursery and The Birth Place.

Birth Certificates
The Birth Certificate office takes care of all the paperwork necessary to process your baby’s birth certificate.

Birth Place
The only one of its kind in Syracuse, the Birth Place is the choice of low-risk families who want to have their baby in a comfortable, homelike setting.

Intensive Care Nursery
Our level III Intensive Care Nursery (ICN) is equipped and staffed 24 hours a day to provide newborn critical care. Each year, sick or premature infants from 16 Central New York counties receive care in our Level III ICN. The nursery is located on the same floor as Labor and Delivery, the Mother-Baby Unit and the Birth Place.

Breast Pumps
Franciscan Companies offers electric breast pumps to new mothers.

Gynecology Services
For those suffering uterine fibroids, ovarian cysts, endometriosis, menorrhagia, uterine prolapse, urinary incontinence or cervical and uterine cancer, St. Joseph’s has a long standing history of exemplary gynecological surgeons.

Labor and Delivery
There are eight private labor and delivery rooms; patients remain in the rooms throughout the birthing process.

Lactation Services
Breast-feeding is supported by a team of lactation consultants available seven days a week and a fully trained staff. If you still need assistance after you go home, a

St. Joseph’s Health Directory of Classes and Programs

**Childbirth & New Family Classes** (A detailed class schedule is available at www.sjhsyr.org/classes)

PH: (315) 448-5515

**Breast-Feeding Class**

Learn valuable information about breast-feeding, including how the breast makes milk, how the baby gets milk from breasts, and the benefits to both mom and baby, establishing a satisfying nursing relationship with your baby.

**Fit and Healthy Pregnancy Class**

Attend this class to learn what to expect as the fetus develops and grows, how your body will change, and exercises to maintain a safe pregnancy.

**Labor Preparation Class**

You will learn how the mother’s body functions to deliver the baby, breathing and relaxation methods to help through labor, medical and non-medical options available during labor, information on cesarean births, and creating flexible birth plans. A tour of St. Joseph’s maternity units will be scheduled.

**Lamaze Weekend**

St. Joseph’s Hospital Health Center offers an alternative childbirth preparation course to learn how the mother’s body functions to deliver the baby, breathing and relaxation methods to help through labor, medical and non-medical options available during labor, information on cesarean births, and creating flexible birth plans. A tour of St. Joseph’s maternity units is included. A continental breakfast and lunch are provided on Saturday.

**Newborn Care Class**

Features a presentation on newborn characteristics and a hands-on practice session where you learn how to bathe your baby, take a temperature, diaper and care for the circumcision. Also covered are feeding issues, preparation for baby’s home and car safety.

**Sibling Class**

Preparing children about normal infant behavior, feelings children may have, ways to help mom and dad with the new baby.

**Staying in Touch**

Topics include breast pumps (types; buying or renting), pumping (when and how), storage and transporting milk, introduction of bottled milk, and juggling children, work and school. Babies are welcome.

**Support Groups**

**Alcoholics Anonymous (AA)**

Meetings for people with a desire to stop drinking. No fee.

Contact: Alcoholics Anonymous Service Center.
PH: (315) 463-5011

Sleepless in Syracuse?

You may be one of thousands of Central New Yorkers who suffer from sleep apnea.

Signs can include:
- Regular morning headaches
- Exhausted during the day
- Disruptive snoring
- Having a large neck

If you or a loved one have any of these symptoms, ask your doctor to order a sleep study at the new state-of-the-art North Sleep Lab – 7246 Janus Park Drive in Liverpool, NY.

Call 315-218-9804 for more information.

St. Joseph’s is sponsored by the Sisters of St. Francis. Franciscan Companies is a member of the St. Joseph’s Hospital Health Center system.
Be philanthropists like John and Phyllis!
All it takes is a gift to St. Joseph’s Hospital Health Center Foundation.

The 1869 Society
THE CORNERSTONE OF OUR FUTURE

To provide exemplary cardiac services at St. Joseph’s Hospital, a generous bequest by Dr. John D’Addario and his wife, Phyllis Sarkin-D’Addario—pictured here with their dog Tucker—will help provide surgeons with the newest and most technically advanced operating rooms.

You are never too young to explore options for leaving a lasting legacy through planned giving. You don’t even have to be extremely wealthy to consider the possible benefits of a planned gift such as helping to increase the value of present-day dollars, reducing estate taxes and income taxes of your heirs, and doing something to benefit future generations.

A gift at any giving level—whether today or in the future—is appreciated!
Let St. Joseph’s Hospital Health Center Foundation help you, your family, and/or your financial advisor look into giving opportunities that would best suit your philanthropic and financial objectives. Possible options include: creating a trust, setting up a charitable gift annuity or establishing a gift through your estate. After all, determining which gift is a perfect fit for you is just as important as actually making the gift.

To learn about giving strategies that would allow you to make a meaningful charitable gift and how that gift might be of personal benefit for you as a donor, contact Douglas G. Smith, FAHP, Vice President for Development St. Joseph’s Hospital Health Center Foundation at 315-703-2138 or visit www.sjhsyr.org/foundation.
