FAST FACTS

FISCAL YEAR 2017

CONNECTING MORE LIVES THAN EVER BEFORE

St. Joseph's Health is a non-profit regional health care system based in Syracuse, NY, providing services to patients throughout Central New York and northern Pennsylvania. From primary to specialty to home care, to our Magnet-recognized hospital, and in collaboration with our community partners, St. Joseph's is advancing the health of the communities we serve through an expanding range of services to ensure our patients achieve optimum health.

A CONTINUUM OF CARE

St. Joseph's Health Hospital has been, and remains, the backbone of our integrated system, delivering award-winning care and providing enhanced value to our primary, specialized, and urgent care facilities throughout the region. A nationally recognized leader in cardiovascular and orthopedic surgical care, the 451-bed comprehensive medical care institution is advancing the standards of care through innovative technologies and improvement in patient care. Our two state-of-the-art ambulatory surgery centers offer outpatient surgery services that do not require an overnight stay.

The continuum of care extends to our comprehensive primary care services provided across multiple locations which help maximize personal health management and overall well-being. Supporting patients' desire to live at home, Franciscan Companies provides a variety of health-related services including home medical equipment, respiratory therapy, sleep disorder treatments, home care, senior programs, wellness initiatives, Lifeline medical alert, medication dispensers and telehealth.

St. Joseph's Health is part of Trinity Health, a Catholic national health care system located in Livonia, Michigan. The membership with a larger faith-based organization strengthens our 150-year old mission of Catholic health care and together we are committed to providing better health, better care and lower operating costs in the communities we serve.

COMMITMENT TO THE COMMUNITY

An integral part of the Syracuse and Central New York community for over 145 years, St. Joseph's remains committed to providing quality care compassionately to the sick and injured. In 2015, St. Joseph's formally expanded several pilot partnerships between primary care providers and specialists to offer psychiatric telemedicine services in areas where access to psychiatrists is limited and to better support the provision of primary care services throughout the region - most recently in collaboration with our affiliate Lewis County General Hospital.

ST. JOSEPH'S HEALTH HOSPITAL...
