St. Joseph's Health is a regional non-profit health care system based in Syracuse, NY. St. Joseph's has been an innovative leader in health care since our founding in 1869 as the first hospital open to the public in the city of Syracuse. Offering primary, specialty and home care, a Magnet-recognized hospital, and collaboration with community partners, St. Joseph's Health advances the well-being of the communities we serve through an expanding range of services to ensure our patients achieve optimum long-term health. St. Joseph's is the only hospital in Syracuse to hold the LeapFrog 'K' safety rating, ranked by Consumer Reports among the top 15 heart surgery centers in the country, a designated Stroke Center and a U.S. News & World Report "Best Regional Hospital." St. Joseph's Health is affiliated with St. Joseph's Physicians, and is a member of Trinity Health.

**A CONTINUUM OF CARE**

St. Joseph's Health Hospital has been, and remains, the backbone of our integrated system, delivering award-winning care and providing enhanced value to our primary, specialized and partner care facilities throughout the region. A nationally recognized leader in cardiovascular and orthopedic surgical care, the 451-bed comprehensive medical care institution is advancing the standards of care through innovative technologies and improvement in patient care. Our state-of-the-art ambulatory surgery center offers outpatient surgery services that do not require an overnight stay.

The continuum of care extends to our comprehensive primary care services provided across multiple locations which help maximize personal health management and overall well-being. Supporting patients' desire to live at home, St. Joseph's Health provides a variety of home health-related services including respiratory therapy, sleep disorder treatments, home care, wellness initiatives, and telehealth services.

St. Joseph’s Health is part of Trinity Health, a Catholic national health care system located in Livonia, Michigan. The membership with a larger faith-based organization strengthens our 150-year old mission of Catholic health care and together we are committed to providing better health, better care and lower operating costs in the communities we serve.

**COMMITMENT TO THE COMMUNITY**

An integral part of the Syracuse and Central New York community for over 150 years, St. Joseph's Health remains committed to providing quality care compassionately to the sick and injured. As an agent of change, St. Joseph's Health understands that health care must start beyond the hospital walls where collaborative work between community partners can focus on addressing the diverse mix of social factors that play a significant role in health outcomes. The goal is to eliminate health disparities and attain optimal health.

As we work to emerge from the COVID-19 crisis together, we’re constantly adapting and improving our protocols and procedures to provide you with the highest level of care at the highest level of safety. Under the guidance of the CDC, CMS and NY public-health officials, we are monitoring our testing procedures, personnel wellness and supply stock daily. Also, we are implementing measures that ensure the cleanliness and security of our facilities. You can trust that your health and safety, as always, remain at the heart of everything we do. Together, we will come through these times stronger and more unified. Together, we will continue to strive for a higher level of care - for our community and ourselves.
